BAKERY & CAFE
WILSON'S
BY HIGH WATCH
KENT • CT
★

Wilson's was founded by High Watch Recovery Center for two very important reasons.

From atop The Hill of Hope, High Watch has been a member of Kent, CT's vibrant community since 1939. We love Kent's rural character and our campus on Carter Road reflects that bucolic feel. Kent's downtown has come to be a wonderful destination for local residents and visitors to the Litchfield Hills and Wilson's is our opportunity to become a part of that.

We love the downtown Kent community, its residents, and business owners and we are proud to join them.

In addition, Wilson's is a vital component of recovery. While with us at High Watch, our guests gain the tools they need to live happy lives free of substances. Our guests are members of the High Watch family for life, and many of our alumni take advantage of the opportunity to work at Wilson's. While with us, alumni gain valuable work experience and learn to live free of addiction while supported by other employees who have lived through and are conquering the same challenges.

Wilson's is a life saver and everyone who enjoys our bakery items and craft menu help support them in their recovery.
